THIS DOCUMENT CONTAINS INFORMATION AFFECTING THE NATIONAL DEFENSE
OF THE UNITED STATES, WITHIN THE MEANING OF TITLE 18, SECTION 793
AND 794, OF THE U.S. CODE, AS AMENDED. ITS TRANSMISSION OR REVELA-
TION OF ITS CONTENTS TO AN UNAUTHORIZED PERSON IS
PROHIBITED BY LAW. THE REPRODUCTION OF THIS FORM IS PROHIBITED.

THIS IS UNEVALUATED INFORMATION

The Iron Works "Bila Cerkev" is located southeast of Rokycany near the village of
Hradek. It is subordinated to the Directorate in Prague. The plant makes semi-
finished sheet metal.

The plant was enlarged in 1951 by the installation of new blast
furnaces and rolling mills. The employees (total unknown) consist mainly of poli-
tical prisoners from the Bory Prison.

Legend

- ... A single track railroad, Rokycany - Nezvestice.
- ... State highway (asphalt), Rokycany - Mirosov.
- ... Railroad track in the plant.
- ... Field (sic) road, four meters wide.
- ... Dry creek, ten meters wide.
- ... Concrete bridge, four meters wide.
- ... Main road (under construction) to the plant.
- ... The Podriský Creek which supplies the plant with water.
- ... A barbed wire fence around the plant which prevents the employees (prisoners) from escaping.
- ... A concrete wall (30 meters long, 30 centimeters wide and two meters high); the purpose of it is unknown.
- ... The old building of the plant - a brick factory hall, 100 x 15 x 10 meters. Furnaces and rolling mills are located here.
- ... Warehouse for fuel and various other materials.
- ... A two-story brick building (12 x 8 meters) which serves as offices for the management.
- 14... This is probably an administrative building like that described under (13) or a wooden barracks like those described under (15) and (16).
- 15,16 Wooden living quarters for the employees.
- 17... Administrative offices of the "Stavena", National Corporation in Prague, which carries out the construction of the new buildings in the plant. These offices are located in a ground-floor brick building.
- 18... New building containing eight furnaces.
- 19... Factory hall of a new plant (purpose unknown), 30 x 15 x 15 meters. The roof is made of corrugated steel and has several light shafts. At the present time, there are no machines in this hall.
- 20... The main hall (30 x 30 x 15 meters) has a corrugated steel roof containing light shafts.
- 21... Pipelines from the old plant to the purification station.
- 22... A purification station for asphalt - a ground-floor brick building.
- 23... A railroad leading to the warehouse. 24... Railroad station Nova Hut
- 25... A ground-floor barracks (15 x 8 meters) for workers' living quarters. It accommodated approximately 50 prisoners at the end of 1950.
- 26... A ground-floor barracks (30 x 12 meters) which accommodated prisoners from the State Prison in Bory. The number of prisoners was 150 at the end of 1951.
- 27... The chimney of the old plant - 50 meters high and five meters in diameter.
- 28... A new chimney - 40 meters high and five meters in diameter.
- 29... A new chimney - 30 meters high and four meters in diameter.
